PROFESSIONAL SUMMARY

Frontend Web Developer skilled in HTML, CSS, JavaScript, React.js, Redux, and Tailwind CSS. Experienced in building responsive, user-friendly interfaces and integrating APIs. Proficient in version control (Git) and modern UI practices. Committed to writing clean code and delivering high-quality web experiences.

SKILLS

Languages and Tools: Javascript (ES6+), HTML5, CSS3, Git, Github, Python, Postman

Frameworks: React JS, Redux, React Router, MongoDB, Bootstrap, Tailwind

FRONTEND DEVELOPMENT EXPERTISE

Skilled in frontend development using HTML, CSS, JavaScript, React.js, and Redux. Experienced in creating responsive UIs with Tailwind CSS and Bootstrap, and integrating RESTful APIs using Axios. Proficient in Git, Vite, and deploying projects via Netlify and Vercel. Comfortable translating designs from Figma into clean, functional code.

EXPERIENCE

Frontend Development Intern CodeAlpha 1st April 2025 to 30th April 2025

- Image Gallery – Built a responsive image gallery using HTML, CSS, and JavaScript with interactive modal view and navigation controls.
- Calculator App – Developed a functional calculator using HTML, CSS, and JavaScript to perform basic arithmetic operations with a clean UI.
- Music Player – Created a custom music player UI with play, pause, and next controls using HTML, CSS, and JavaScript to handle audio interactions.

Python Language Intern ProcessDrive Pvt. Ltd. July 2024 - July 2024 (15 Days)

- Developed Python-based tools including an Image-to-Text Converter using Gemini API and a Video-to-Image frame extractor, applying real-world API integration techniques.
- Integrated MongoDB into Python applications, gaining hands-on experience in database operations and data handling.
- Built a fun chat application, enhancing skills in applying concepts of HTTP requests using Postman and Python.

EDUCATION

Adhiyamaan college of Engineering , B.E in Electronics and Communication Engineering Sept 2022 – May 2026

CGPA: 8.20(Upto 6th sem)

Sigaram.Matric.Hr.Sec.School , HSE 2021– 2022 **Percentage :** 79.6%

SSLC 2020-2021 **Percentage :** 78.2%

PROFESSIONAL INTERESTS

- Passionate about frontend development, focusing on creating responsive, user-friendly interfaces using React.js, Tailwind CSS, and Redux.
- Interested in UI/UX design implementation, performance optimization, and staying updated with the latest web development trends and technologies.

PARTICIPATION

- Participated in a Web Development Workshop at Karpagam College of Engineering, focusing on modern frontend tools and responsive design techniques.
- Attended a Network Essentials Workshop at Adhiyamaan College of Engineering, covering the basics of computer networking, protocols, and security fundamentals.

PROJECTS

foodappsimilartoSwig : [LINK](#)

[VisitGitRepo](#)

- Developed a responsive food listing web app using HTML, Tailwind CSS, and React.js with Redux Toolkit for state management.
- Implemented lazy loading and Shimmer UI to optimize performance and improve user experience.
- Integrated real-time Swig API for seamless data fetching and dynamic content rendering.

Booksky : [LINK](#)

[VisitGitRepo](#)

- Developed BookSky, a frontend web application using HTML, CSS, and JavaScript to share and explore key hints or takeaways from books.
- Enabled users to add books with their corresponding hints, which are then displayed for others to view in a simple and organized layout.
- Built as a frontend-only project without backend or authentication, focusing on user-friendly interaction and clean presentation.

COURSE WORK

- JavaScript from Namaste dev
- Web Development from Udemy
- Mastering React with Tailwind CSS and Redux Toolkit from Udemy
